

TRION ANIMA

Full Test Suite Report

tests/test_anima_full.py · 2026-07-29 · Python 3.11.14 · pytest 9.0.3 · pluggy 1.6.0

COLLECTED	PASSED	SKIPPED	FAILED	WARNINGS
141	138	3	0	1
Non-concurrent tests		~265 s (4 m 25 s)		137 selected
Concurrent load tests		~146 s (2 m 26 s)		4 selected
Fix verification		~1 s		2 re-run
Total		~412 s (6 m 52 s)		141 total

PART 1 — Non-Concurrent Tests (137 selected)

All behavioral engine, formula unit, and API integration tests. 2 bugs found and fixed during this run — marked below.

```

PART 3 — Fix Verification (re-run of patched tests) — 1 s

```
tests/test_anima_full.py::TestImmuneSystem::test_adaptive_memory_registration PASSED
tests/test_anima_full.py::TestEpigenetic::test_epigenetic_phenotype_shifts_with_threat PASSED
```

BUGS FOUND & FIXED (2 of 2 resolved)

BUG 1 — TestImmuneSystem::test_adaptive_memory_registration

Endpoint: POST /api/v1/living_security/immune/adaptive
HTTP: 422 Unprocessable Entity
Error: {"detail":[{"type":"missing","loc":["query","pattern_name"],"msg":"Field required"}]}

Root cause: FastAPI treats bare function args on POST routes as query params. Test sends JSON body – body values were silently ignored.

Fix: Added Pydantic model _AdaptiveImmuneIn. Endpoint signature: (body: _AdaptiveImmuneIn) instead of (pattern_name: str, ...).

File: akashic/faiss_service.py line ~6338

BUG 2 — TestEpigenetic::test_epigenetic_phenotype_shifts_with_threat

Endpoint: POST /api/v1/living_security/epigenetic/update
Assertion: AssertionError: Expression level must respond to threat changes assert 1.0 != 1.0
Root cause: Same FastAPI query-param issue. Defaults always applied: threat_level=0.0, validator_health=1.0, network_entropy=1.0. compute_epigenetic_state(0.0,1.0,1.0) = (1+0)*1*(0.5+0.5) = 1.0 always.

Fix: Added Pydantic model _EpigeneticUpdateIn. With threat_level=0.95, vh=0.20: expr = (1.475)*0.20*0.65 ≈ 0.192 (correctly != 1.0).

File: akashic/faiss_service.py line ~6418
